

# INFORMATION FOR SCHOOLS & LIBRARIES

I want to ask you for an opportunity to teach Spanish classes for toddlers, kids, and adults at your Library. The Public Library provides families with helpful information about, and opportunities to connect with their community.

I have had the feeling that it is time to bring the diverse community together by providing a place where new immigrants and their families can connect with resources, learn new skills, and meet new people.

I want to help all Public Libraries develop Spanish programs, offering classes for babies, toddlers, elementary students, teens, and adults. The following programs would help us to bring the community together at your library.

# OUR PROGRAMS

## Spanish Fun

### ***Social Club***

This program can be for kids who practice Spanish or those who want to learn. Students could come to immerse themselves into a Spanish class in which all the time is spent hearing and speaking Spanish, playing bingo, singing, dancing to Hispanic music, learning facts about the specific Hispanic country, its flag, traditions, culture, food, music, weather, location, and more. This program is ideal for six years old to 12 years old. This program makes projects for every class, students learn the ABC, numbers, vocabulary, and learn how to speak the daily routines, learn songs and play engaging games. Students learn to identify words in Spanish.

## Spanish Fun Program

### ***for babies to 5 years old***

I use games with balloons, flashcards, toys, songs to learn the parts of the body, we pretend to be in “el mercado”, the grocery store and we buy fruits and vegetables, also kiddos learn the colors using this game too. They love to play with the parachute and I use it to teach them the days of the week, and the months of the year. They play, jump, and run following directions in Spanish to mention a few. This class is very active, with different activities to engage the kids for 30 minutes. Part of this Program is also Sing along in Spanish with movements and mimics.

## Spanish Fun Program

### ***for Special Needs Kids***

I would also like to offer a class for all our special needs kiddos that sometimes feel that the community does not offer activities for them. Being a mom and a foster mom of kids with special needs, I know that sometimes they can not participate in certain activities or classes because it is too noisy, too overwhelming, or too stimulating. My class would be organized primarily for them. Please let me know when I can make this class only for them.

*Our Spanish program at the library is designed to provide a gateway to the rich world of Spanish language and culture. We offer a variety of engaging activities that cater to both beginners and advanced learners. From Spanish language classes and conversation workshops to cultural events and book discussions, our program aims to foster a deeper appreciation for the Spanish language and the diverse cultures it represents. Whether you're looking to learn a new language, improve your existing skills, or simply connect with fellow Spanish enthusiasts, our library is the perfect place to embark on your linguistic and cultural journey. Join us and explore the vibrant world of Spanish language and culture right here at the library!*

### Spanish Fun Program **for Adults**

Food always brings the community together and is the best environment to learn and have fun. This is a fun and interactive class. The class will have an easy but traditional Hispanic recipe like the popular Guacamole from Mexico in which the students would learn vocabulary, facts about the country's recipe, and more. Students will pretend to be in a Hospital, hotel, bank, and other places practicing Spanish. (1 hour)

### Social Hispanic **Fun Program**

I want to develop this program for Hispanic families that don't speak English but want to be part of your Community. Spanish speakers who want to feel included in the city but they don't know how or they don't know any other people that speak Spanish. I could help develop this program where we would chat in Spanish about our community making them feel welcome. It feels so good and relaxing when I find a Spanish speaker and I can just speak Spanish and talk about my country and laugh about anything. I believe the library is a great place to make this happen.

**With all these programs, we could increase the usage of the Public Libraries and, at the same time, grow the support for the library as well. Your library is a crucial part of the community where everyone feels included and supported. It connects their communities in a way that benefits everyone.**

**We hope to hear from you soon.  
Thank you for your support.**
